protection, IRDA - Insurance Regulatory and development Authority, Income Tax Act of 1961, Sales Tax, The Monopolies & Restrictive Trade practices Act, 1969 (The Competition Act, 2002), Banking companies Act, 1949, Industries, Development and Regulation Act, 1951, Indian Companies Act, 1956, Foreign Exchange Regulation Act, 1973, Sick Industrial Companies Act, 1985, consumer protection Act, 1986, Chit Funds Act, 1987, Negotiable Instruments Act, 1881, Indian contract Act, 1872, Transfer of property Act, 1882, Review Questions.

Chapter - 3 : Investment Decision

Concept of Investment Decision, Concept of Capital Budgeting, Importance of capital budgeting, Objectives of Capital budgeting, Types of Capital Investment Projects, Concept of Project Appraisal, Project appraisal methods, Payback Period method of investment appraisal, Merits and Demerits of Payback method, Accounting or Average Rate of Return method, Merits and Demerits of ARR method, Discounted Cash Flow Techniques (DCF), Definition of Net Present Value Techniques (NPV), Merits and Demerits of NPV method, Meaning of Benefit/Cost Ratio (BCR), Definition of Internal Rate of Return (IRR), Advantages of DCF techniques, General criticisms against DCF techniques, NPV and IRR methods - A Comparison, Terminal Value Method. Meaning of Leasing, Distinction between Lease and Loan, Distinction between Hire Purchase and Lease Financing, Types of Lease Transactions, Types of Assets leased, Sources of Funds for Lease Financing, Merits of Leasing, Limitations of Leasing, Lease Evaluation, Practical Problems, Review Questions.

Chapter - 4 : Project Appraisal Under Risk and Uncertainty

Need for Risk Analysis, Meaning of the Concepts of Risk and Uncertainty, Major Types, Modern Quantitative Techniques that may be Used in Risk Management, Conservative Methods or Tools of Risk Analysis, Merits of Risk-Adjusted Discount Rate, Demerits, Conservative Forecasts, Modern Methods of Risk Analysis, Probability Analysis, Measures of Risk - Standard Deviation, Coefficient of Variation [Cv], Decision Tree Analysis, Utility Theory, Advantages, Limitations, Capital Rationing, Factors Leading to Capital Rationing, Establishing Capital Priorities, Sensitivity Analysis, Practical Problems, Review Questions, Review Problems.

Chapter - 5 : Financial Planning and Forecasting

Meaning of Financial Planning, Concept of Financial Plan, Objectives of Financial Plan, Types of Financial Plan, Steps in Financial Planning, Formulation of financial policies, Developing financial procedures, Reviewing financial plan, Significance and Importance of Financial Planning, Basic considerations in formulating Financial Plan, Limitations of Financial Planning, Need for Financial Planning, Meaning of Financial Forecasting, Financial forecasting offers the

following advantages, Tools of financial forecasting, Financial forecasting and Assessment of fund requirements, Assessment of fixed capital requirements, Assessment of working capital forecasting, Assessing intangible asset requirements and forecasting, Factors to be considered in drafting a financial planning is essentially a process of financial forecasting, Verifying the financial estimates, Capitalization, Book Value Vs. Intrinsic Value of Shares, Causes of Over-capitalization, Effects of Over-capitalization, Remedies of Over-capitalization, Under-capitalization, Causes of Under-capitalization, Effects of Under-capitalization, Remedies for Under-capitalization, Review questions.

Chapter - 6 : Long Term Sources Of Finance

Sources of Finance, Ownership Securities, Creditor Ship Securities, Meaning of Share Capital, Meaning of Share, Kinds of Shares, Equity Shares, Preference Shares, Types of Preference Shares, Cumulative and Non-Cumulative Preference Shares, Participating and Non-Participating Preference Shares, Redeemable and Irredeemable Preference Shares, Convertible And Non-Convertible Preference Shares, Guaranteed Preference Shares, Fixed Return, No Voting Right, Flexibility, No Burden on Finances, No Charge On Assets, Wide Capital Market, Regular Fixed Income, Preferential Rights, Voting Right for Safety of Interest, Fair Security, Demerits of Preference Shares, Demerits for Companies, Demerits for Investors, Equity Shares, Advantages of Equity Shares, Advantages to Company, Advantages to Investors, Disadvantages of Equity Shares, Disadvantages to Company, Disadvantages To Investors, What Is Right Financing? Advantages of Right Issue, Consideration For Pricing The Right Issue, Impact of Rights on Financial Policy, Procedure of Making Rights, Deferred (Or) Founders Shares, Non-Voting Shares, Advantages of NVS, Disadvantages, Shares Issued at a Premium, Shares Issued at a Discount, Shares Issued for Consideration other than Cash, Issue of Sweat Equity Shares, Buy Back of Shares By a Company, Debentures, Debentures Vs Share Capital, Kinds of Debentures, Advantages of Debentures, Disadvantages of Debentures, Warrants, Warrants and Convertible Securities, Valuation of Warrants, New Debt Instruments, Global Financing (Euro Issues), Introduction, Meaning of Euro Issues, Global Depository Receipt, Foreign Currency Convertible Bonds, American Depository Receipts (ADRs), TERMS LOANS, Advantages (Company's Point of View), Disadvantages (Company's Point of View), Advantages (Lender's Point of View), Disadvantages (Lenders Point of View), Review Questions.

Chapter - 7 : Cost of Capital

Significance of Cost of Capital , Concept of Cost of Capital, Salient Features of Cost of Capital, Different concepts of Cost of Capital, Computation of Cost of Capital, Cost of Redeemable Debentures, Cost of Preference Share Capital [Kp], Cost Equity Capital, Dividend Yield

Model/Approach, Dividend Growth Model, Earnings Price Model, Capital Asset Pricing Model [CAPM], Cost of Retained Earnings [Kr], Weighted Average Cost of Capital [WACC], Practical Problems, Review Questions, Review Problems.

Chapter - 8 : Analysis of Leverage

Operating Leverage, Operating Risk, Financial Leverage, Effect of Financial Leverage, Patterns of Capital Structure, Return on Equity [ROE], Favorable Financial Leverage, Unfavorable Financial Leverage, Profitability Statement, Degree of Financial Leverage [DFL], Financial Risk, Measures of Financial Leverage, Composite or Combined Leverage, EBIT-EPS Analysis, Indifference Points, Practical Problems, Review Questions, Review Problems

Chapter - 9 : Capital Structure Planning And Policy.

Significance of Capital Structure, Meaning of Capital Structure, Concept of Optimum Capital Structure, Appropriate Capital Structure, Elements of Capital Structure, Debt-Equity Mix, Terms and Conditions, Priority and Maturity, Currency, Financial Innovations, Financial Market segments Features of an Appropriate Capital Structure are as follows, Determinants of Capital Structure, The degree of business risk, Control, Capital Market conditions, Government Regulations, Attitude towards Risk, Cost of Capital, Size of the Company, Trading on Equity, Approaches to establish Capital Structure, [a] EBIT-EPS Approach, Valuation Approach, Cash Flow Analysis, Components of cash Flows, Evaluation of Capital Structure, Theories of Capital Structure, Basic Assumptions, Net Income Approach, Leverage and Cost of Capital (NI Approach), Net Operating Income [NOI] Approach, Critical Assumptions, The Traditional Approach, Criticisms of the Traditional Approach, Modigliani and Miller Approach, Assumptions, MM Propositions, Arbitrage Process:], Working of the Arbitrage Process, Corporate Taxes, Criticisms of MM Hypothesis, Pecking order theory, The Trade off Theory: Costs Of Financial Distress and Agency Costs, Practical Problems, Review Questions, Review Problems.

Chapter - 10 : Mergers and Acquisitions

Meaning of Mergers and Acquisitions [M & A], Types of Amalgamation . Take-over Types of Merger, Motives and Reasons behind Mergers. Demerits of Mergers, Steps in Merger, Scheme of Amalgamation, The Scheme will suitably provide for, Exchange Ratio, Tax Incentives and Merger, Capitalized Value of EPS, Book Value Approach, Fair Value of a Share, Valuation based on Cash Flows, Economic Value added, Mergers and Takeovers in India, Mergers and Takeovers: Current Trends , Regulatory Framework in India, Tax aspects of Mergers and Acquisitions, Review Questions, Review Problems.

Chapter - 11 : Corporate Restructuring

Introduction, Restructuring, Characteristics, Reasons for Restructuring, Areas of Restructuring, Expansion techniques, Divestment Techniques, Strategies for Restructuring, Implications of Restructuring, Reconstruction, Financial reorganization, Review Questions.

Chapter - 12 : Dividend Decision

Nature of Dividend Decision Concept of Dividend, Types of Dividend, Concept of Dividend Decision, Cash Flows as Determinant of Payouts, Legal Decision on Dividends, Limitations, Earnings Yield Method, Price/ Earnings Ratio Method.

Chapter - 13 : Dividend Theories

Irrelevance concept of dividend, Dividend as a passive residual decision, Modigliani -Miller's approach of irrelevance of dividend, The basic assumptions of M-M approach, Residual Theory of Dividends, Relevance concept of dividend [General criticisms of MM hypothesis], Walter's approach, An evaluation of Walter approach, Gordon's approach, Practical Problems, Review Questions, Review Problems.

Chapter - 14 : Dividend Policy In Practice

Meaning of Dividend Policy, Some definitions of Dividend Policy, Nature of Dividend Policy, Objectives of Dividend Policy, Basic issues involved in Dividend Policy, Factors influencing Dividend Policy, Types of Dividend Policy, Advantages of stable dividend policy, Advantages to company, Disadvantages, Policy of no immediate dividends, Policy of regular stock dividends, Policy of regular dividends and stock dividends, Policy of irregular dividends, Linter Model - A Support for Stable Dividend Policy, Optimal Dividend Policy, Dividend payment procedure, Bonus Shares (Scrip Dividends), Guidelines for issue of bonus shares, Stock Split, Shares repurchase (buyback of shares), Reasons for issuing bonus shares, Advantages of bonus shares to Shareholders Company, Bonus shares Vs Stock split, Rights Shares, Valuation of Rights, The Dividend Puzzle, Review Questions.

Chapter - 15 : Working Capital Management

Concept of Working Capital Management, Concept of Working Capital, Need for Working Capital, Types of Working Capital Concept, The Operating Cycle, Operating Cycle of a Manufacturing Organisation, Operating Cycle Period, Objectives of Working Capital Management, Significance of Adequate Working Capital, Importance of Operating Cycle Concept, Reasons for Prolonged Operating Cycle, How to Minimize and Reduce Operating Cycle? Applications and Utility of Operating Cycle Concept, Types of Working Capital, Financing of Working Capital, Approaches to Working Capital Management, Risk

Return Trade off, Adequacy of Working Capital, Determinants of Working Capital, Monitoring and Control of Working Capital (Or) Working Capital Analysis, Working Capital Leverage, Review Questions,

Chapter - 16 : Working Capital Estimation

Estimation Methodology, Working Capital as a percentage of Net Sales, Working Capital as a percentage of Total assets (or) Fixed Assets, Working Capital Based on Operating Cycle, Current Assets, Current Liabilities, Need for Cash and Bank Balance, Need for Procurement of Raw Materials, Need for Work in Process in Production, Need for Finished Goods, Need for Receivables, Creditors for Purchase, Creditors for Expenses and Wages, Estimation of Working Capital Requirement, Regression Analysis Method, Zero Working Capital, Over Trading, Determining the amount of current assets and current liabilities, Operating Cycle Approach, Review Questions, Review Problems.

Chapter - 17 : Cash Management

Concept of Cash Management, Motives of Holding Cash, Objectives of Cash Management, Measurement and Management of Liquidity, Factors Affecting the Cash Needs And Management, Planning Cash Management, Importance And Significance Of Cash Budget, Cash Management Control, Computerized Cash Management, Float System, Management of Surplus Cash, Arrange Funds for Cash Shortage, Optimum Cash Management, Miller - Orr Model, Assumptions, Review Questions, Review Problems.

Chapter - 18 : Accounts Receivable Management

Concept of Receivables Management, Definition of Receivables Management, Objectives of Receivables Management, Cost of Managing Receivables, Factors effecting The Quantum of Receivables, Optimum Size of Accounts Receivable, Methodology and Techniques of Receivables Management, Receivables Management Control, Aging Schedule of Receivables, Factoring Services, Review Questions, Review Problems.

Chapter - 19 : Inventory Management

Concept of Inventory Management, Types of inventories, Inventory management objectives, Benefits and costs associated with risk in inventories, Factors determining the optimum level of inventory, Tools and techniques of inventory management, Other techniques of Inventory Management, Requirements of JIT System, Review Questions, Review Problems.

Chapter - 20 : Working Capital Finance

Sources of Working Capital Finance, Sources of Working Capital, Financing of Permanent /Fixed (Or) Long Term Working Capital,

Finance For Temporary, Variable or Short Term, Working Capital, Types of Letter of Credit, Security Required in Bank Finance, Asset Securitization, Process Of Securitization, Benefits And Significance of Securitization, Working Capital Control and Banking Policy, Recommendations, Tan don Committee Report, Maximum Permissible Bank Finance [MPBF], Deviation From Norms Slip Back, Style of Credit And Flow of Information, Recommendations, Implementation of Recommendation, Mara the Committee Report, Requirements, Prompt Submission of Operating Statements, Certificate, Review Questions.

Chapter - 21 : Financial Statements Analysis

Meaning of Financial Statements, Objectives of Financial Statements, Nature of Financial Statements, Users of financial Statements, Essential features of Financial Statements, Importance of Financial Statements, Limitations of Financial Statements, Method of presentation of Financial Statements, Income Statement, Profit and Loss Appropriation Account, Meaning of Analysis and Interpretation of Financial Statements Main objective of Financial Analysis, Different types of Financial Analysis, Major tools of Financial Analysis, Preparation of Comparative Financial Statements, Preparation of Comparative Financial Statements, Comparative Balance Sheet, Tentative conclusions, Comparative Income Statement, Comparative Profit and Loss Statement, Preparation of Common-size Statements, Computation of Trend Percentages or Ratios Interpretation, Review Questions, Review Problems.

Chapter - 22 : Ratio Analysis

Meaning of Ratio Analysis, Nature of Ratio Analysis, Interpretation of Ratios, Uses or Advantages of Ratio Analysis, Limitations of Ratio Analysis, Various Methods of Classification of Ratios, Analysis of Liquidity or Liquidity Ratios, Analysis of Profitability or Profitability Ratios, Return on Capital Employed - Meaning, Advantages of the Concept of Return on Capital Employed, Due Pont Control Chart, Return on Investment [ROI], Analysis For Solvency or Solvency Ratios, Review Questions, Review Problems.

Chapter - 23: Funds Flow Analysis

Need for Funds Flow Analysis, Significant Role or Importance of Funds Flow Analysis, Concept of Funds, Concept of Flow of Funds, Distinctions between Funds Flow Statement and Income Statement, Distinctions between Balance Sheet and Funds Statement, Uses of Funds Flow Statement, Limitations of Funds Flow Statement, Preparation of Funds Flow Statement, General Guidelines, Statement of Changes in Working Capital, Funds from Business Operations, Proforma of Adjusted Profit and Loss A/C, Changes In Non-Current Assets and Liabilities, Proforma of a Funds Flow Statement, Statement of Sources

and Application of Funds, Statement of Changes in Financial Position [SCFP], Review Questions.

Chapter - 24: Cash Flow Analysis

Meaning of Cash Flow Analysis, Principal Sources and Application of Cash in a Business, Format of a Cash Flow Statement, Calculation of Cash from Operations, Adjusted Profit and Loss Account, Distinction between Cash Flow Analysis and Funds Flow Analysis, Managerial Uses or Advantages of Cash Flow Analysis, Accounting Standard [As 3] - Revised Format, Review Questions, Review Problems.

Chapter - 25: Cost Volume Profit Analysis

What is CVP Analysis?, Importance of CVP Analysis, Break-Even Analysis, Fixed Costs Vs. Variable Costs, Assumptions of Break-Even Analysis, Mathematical Representation of Break-Even Analysis, Calculation of Profit/Volume Ratio [P/V Ratio], Uses Of P/V Ratio, Margin of Safety [MS], Break-Even Chart , Construction of Break-Even Chart, Angle of Incidence, Profit Volume Graph Or Chart, Advantages of Break-Even Charts, Limitations ,Practical Utility Of Break-Even Analysis, Limitations Of Break-Even Analysis, Review Questions, Review Problems.

Chapter - 26 Budgeting And Budgetary Control

Need for Budgeting, Concepts of Budget and Budgetary Control, Objectives of Budgetary Control, Advantages of Budgetary Control, Major Problems Involved in Developing a Budgeting System, Limitations of Budgetary Control, Organization for Budgetary Control, Organization Chart for Budgetary Control, Main Functions of Budget Committee, Preparation of Budget Manual, Budget Period, The Key Factor, Classification of Budgets, Flexibility Based Classification, Preparation of Budgets, Production Budget, Production Cost Budget, Material Budget, Purchase Budget, Cash Budget, Receipts and Payments Method, Adjusted Profit and Loss Method, Balance Sheet Method, Preparation of Flexible Budget, Consolidation of Budgets, Master Budget Performance Budgeting [PB], Meaning of PB, Purpose of PB, Process of PB, Operational Steps in PB, Programme Budgeting. Programme Budgeting Process, Traditional Budgeting Vs. Programme Budgeting, Performance Budgeting Vs. Programme Budgeting, Zero-Base Budgeting [ZBB], Meaning of ZBB, Features of ZBB, Process of ZBB, Traditional Budgeting Vs. ZBB, Advantages of ZBB, Limitations of ZBB, Review Questions, Review Problems.

Chapter - 27: Financial Information System

Concept and Needs, Elements of Fis, Uses of Fis System, Processing of Fis, Decision Making Process and Information Flow, Quality of Information, Desirable Properties of Fis, Benefits of Fis, Review

Chapter -28: Financial Services

Meaning, Features of Financial Services, Types of Financial Services, Factoring History, Why Firms Use Factoring, Difference between Factoring and Bank Loans, How It Works, Factors Invoice Payers (Debtors), Professionals, Legal, Merchant Banking, Spectrum of Services, Issue Management Services, Project Appraisal Capability, Marketing Edge / Products to Retail Investors, Underwriting, Securities Underwriting, Insurance Underwriting, Merger & Acquisition, Financing M&A, Cash, Financing, Commercial Paper, Issuing Commercial Paper, Venture Capital, Raising Substantial Venture Capital, Main Alternatives to Venture Capital, Venture Capital and Development, Investment Banks, Mutual Funds, Net Asset Value. Types of Mutual Funds, Credit Rating, Reliability and Consistency of the Rating Process, Same Issue Rated by more than One Rating Agency, Monitoring the Issues already Rated by Rating Agencies, Right of Appeal against a Rating Assigned, Time Taken for Rating, Rating Assigned by more than One Rating Agency, Rating of Rating Companies, Rating Assigned - for an Instrument and for the Issuer Company, Investors and Down Gradation, Credit Rating Agencies in India, CRISIL Limited, Long Track Record of Timely Rating Rating Actions, Deeper Analytical Insights Due to Wider Coverage, Range of Services, Information Services, Advisory Services, Fitch Ratings India Private Ltd., ICRA Ltd., Credit Analysis & Research Ltd. (CARE), Concept of Lease financing, Advantages of Leasing, Hire Purchase Asset Liability Management system, Book Building, Credit Card, Forfaiting, Forfait's Practical Utility, Information a Forfeiter Need, Commonly Used Debt Instruments, Cost an Exporter Gets His Money, Review Questions.

Chapter -29: International Financial Management

What is so Different about International Financial Management? Need to Study International Finance, Foreign Exchange Market [Forex Market], Foreign Exchange Rate Management of Foreign Exchange Risks, Problems Faced by a Firm, Management of Foreign Exchange Risk, Hedging Foreign Exchange Risk, Forward Exchange Contracts Types of Forward Contracts, Rules and Regulations Governing Forward Exchange, Foreign Currency Option, Money Market Operations, Foreign Currency Swaps, Arbitrage International Investment Decisions, Appraising Project Profitability, Project Financing International Working Capital Management, Review Questions.

ADVANCED PROBLEMS AND SOLUTIONS IN FINANCIAL MANAGEMENT
